Senior iOS Engineer

Senior iOS Developer with 10+ years of experience building scalable mobile applications across healthcare, government, logistics, and enterprise platforms. Proven track record of delivering production-ready iOS applications using Swift, SwiftUI, and modern architecture patterns (MVVM, VIPER). Experienced in leading development teams, optimizing performance, and shipping high-quality apps used by thousands of users across the UAE, Canada, and international markets.

Core Skills

Languages & Frameworks

Swift, SwiftUI, Objective-C, UIKit, Combine, RxSwift

Architecture

MVVM, VIPER, MVC, Modular Architecture

iOS Technologies

CoreData, MapKit, AVFoundation, Push Notifications, Core Animation, UserNotifications

Networking

URLSession, Alamofire, Moya, REST APIs

Real-Time Communication

Twilio, Agora, OpenTok, Socket.IO, MessageKit

Tools & DevOps

Xcode, Git, GitHub, GitLab, Bitbucket, CI/CD Pipelines, Jira

Databases & Cloud

Firebase, Firestore

Professional Experience

Lead iOS Developer

Oasis Livestock – Abu Dhabi, UAE (Hybrid)

Sep 2024 – Present

- Lead iOS feature development for enterprise logistics applications used in the livestock management sector
- Implement scalable modules and optimize application performance to improve reliability and responsiveness
- Conduct code reviews and mentor junior developers to maintain high engineering standards
- Collaborate with QA and product teams to ensure rapid delivery of stable production releases

Lead iOS Developer

Nano Health Suite – Dubai, UAE (Onsite)

Sep 2023 – Jul 2024

- Led development of healthcare platform features serving clinics and healthcare providers
- Implemented secure networking layers and SSL configuration to ensure secure data communication
- Integrated CI/CD workflows with DevOps teams to accelerate release cycles and development efficiency
- Introduced improved testing and review practices to increase application stability

Lead / Senior iOS Developer

Neusol – Dubai, UAE / Pakistan (Hybrid)

Jan 2021 – Aug 2023

- Led iOS architecture design and development for multiple enterprise and marketplace applications
- Refactored business logic layers to improve maintainability and reduce technical debt
- Implemented performance optimizations and crash monitoring strategies using Firebase Crashlytics

- Collaborated closely with product and design teams to deliver user-centric mobile experiences

Senior iOS Developer

Invision Custom Solutions — Canada (Remote)

Sep 2019 – Dec 2020

- Maintained and enhanced multiple production mobile applications used by international clients
- Led migration of legacy Objective-C codebase to modern Swift architecture
- Developed and maintained custom CocoaPods SDK for messaging and video communication features
- Designed modular components to improve scalability and maintainability of mobile platforms

iOS Developer

Digitonics Labs — Karachi, Pakistan (Onsite)

Jan 2018 – Sep 2019

- Developed scalable mobile applications using UIKit and RESTful APIs
- Participated in project planning and cross-team collaboration with backend and design teams
- Integrated third-party libraries and optimized UI/UX for performance and usability

Junior iOS Developer

Appxone — Karachi, Pakistan (Onsite)

Jan 2015 – Dec 2017

- Built and maintained iOS features using Objective-C and early Swift versions
- Participated in pair programming and collaborated with senior engineers on production apps
- Assisted in debugging, testing, and feature delivery for mobile products

Selected Projects

Production applications used by large user bases across the UAE and international markets

Thahabi (ذهبي) – Gold & Jewelry Marketplace

Company: Oasis Livestock

Developed features for a mobile marketplace focused on buying, selling, and customizing gold and jewelry. Implemented product browsing, secure payment integration, and order management features to support a seamless e-commerce experience.

App Store URL: [Thahabi](#)

Dubai Health Authority (DHA) Mobile Platform

Company: Nano Health Suite

Contributed to the development of a unified healthcare application enabling patients to access DHA services and digital healthcare features.

App Store URL: [DHA App](#)

Telecommunications and Digital Government Regulatory Authority (TDRA UAE)

Company: Neusol Private Limited

Developed features for the Telecommunications and Digital Government Regulatory Authority mobile platform supporting telecom users in the UAE.

App Store URL: [TRA App](#)

MOH COVID-19 Application (UAE)

Company: Neusol Private Limited

Worked on the mobile platform supporting public health initiatives and digital contact tracing during the pandemic.

App Store URL: [MOHAP](#)

Pillway – Healthcare Platform (Canada)

Company: Invision Custom Solutions

Developed modules for medication delivery and pharmacy management systems.

App Store URL: [Pillway](#)

Education

Diploma in **Software Engineering**

Aptech Computer Education

Additional Information

- 10+ years of professional iOS development experience
- Experience working with distributed teams across the UAE, Canada, and Pakistan
- Comfortable working in Agile/Scrum development environments
- Strong focus on performance optimization, scalable architecture, and maintainable code
